SHANGHAI HOUSING

Shanghai Housing is striving to offer our customers the best quality hardware, plastic, die-casting and wooden products at the very competitive prices. A wide range of hardware products are available for your selection.

We are a specialist housing products manufacturer in China. Our products range from all kinds of hinges, handles, nails, screws, drawer slides, brackets, bolts to catches etc. The products details and products finishes are shown in the catalogue. OEM projects are also welcome, just show us your samples and specifications and we can manufacture the products to your requirements.

We have our own STAMPING, ELECTRO-PLATING and ASSEMBLING factories in Shanghai, China, which is the biggest STEEL BASE in China, occupying an area of 8,000 square meters with very advanced machineries.

We implement modern management system to production, sales and marketing services. Also we employ strict QC system so as to maintain highest product quality & reduce products cost, that is why we can supply our customers high-quality hardware products with very competitive prices for the competitive markets.

Our main worldwide markets are: USA, CANADA, EUROPE & ASIA etc, we are now seeking more business partners worldwide. Don't hesitate to contact us for a profitable future. Your enquiries, big or small, will be replied within 24 hours.

QUALITY CONTROL

ISO-9001:2000

We have established a strict and mature QC system in our factory, strict inspection and quality control procedures are implemented from raw materials to finished products, so as to assure that our products leaving the factory have the highest quality that will satisfy all our customers requirements.

From July 7, 2005, we have been awarded ISO-9001:2000 by UK Moody International Certification.

Contact us now for a profitable future.

QUALITY CONTROL

Quality is first for Shanghai Housing Products. In order to achieve high product quality, we have invested heavily on testing machineries and tools such as Salt-Fog Testing Machine which is used to test materials and plated layers' antirust capacity from salt and fog in the air, for example: antiacid. We also have Self Closing testing machineries and so on, to guarantee high quality of our products.
